## EDUCATION

### Delhi Public School Kalyanpur

Senior Secondary Education – 12<sup>th</sup>

Percentage: 81%

Kanpur, Uttar Pradesh

May 2019

### Vellore Institute of Technology, Bhopal

Bachelor's in Computer Science (Specialisation in AI and ML)

GPA:- 8.13/10

Bhopal, Madhya Pradesh

July 2024

## PROFESSIONAL EXPERIENCE

### Yottol Financial Services Private Limited

Full Stack Web Developer Intern

Oct 2024 - Mar 2025

- Designed and implemented highly responsive and user-centric front-end interfaces using React, ensuring smooth user experiences across devices and screen sizes.
- Built and maintained robust backend services using Node.js and Express, facilitating secure and efficient API communication between the client and server.
- Integrated Amazon Web Services (AWS), including S3 for file storage and media management, significantly improving application scalability, availability, and performance.
- Employed a full-stack development approach with technologies such as React, Node.js, Express, MySQL, and AWS to deliver a high-performing and maintainable web application.

### Null Clas

Full Stack Web Developer Intern

Dec 2022 - Feb 2023

- Designed and developed a dynamic Q&A platform featuring an integrated AI chatbot for real-time user assistance.
- Engineered core functionalities including user authentication, question posting, answer submission, and seamless chatbot interaction.
- Utilised a modern tech stack comprising HTML, CSS, JavaScript, Node.js, and MongoDB to build a responsive and scalable application

## PROJECTS

### Fitness Club Management | [Link](#)

- Developed a platform for efficient fitness club management, simplifying scheduling, membership handling, and business operations.
- Utilised JavaScript, Node.js, Express.js, and MongoDB to create a robust backend and user-friendly interface

### Study Verse | [Link](#)

- Created an online learning platform connecting students with mentors to enhance education and provide guidance and a proper roadmap.
- Collaborated with a team, where my primary responsibility was handling the frontend development.
- Leveraged React.js, Firebase, and Tailwind CSS for a responsive and interactive user experience.

### Ecommerce App | [Link](#)

- Built a user-friendly e-commerce website using React and TypeScript with features like login, product pages, shopping cart, and order tracking.
- Created backend APIs with Node.js and PostgreSQL to manage users, products, and orders safely and efficiently.
- Used Tailwind CSS to design a clean and responsive layout that works well on both mobile and desktop devices.

## SKILLS

**Programming Languages:** Python, JavaScript,

**Web & API Development:** REST, GraphQL; Django, ReactJS, ExpressJS, NextJS, Bootstrap, Tailwind, Redux, SaaS

**Database:** MySQL, PostgreSQL, SQLite, NoSQL

**Cloud & Infrastructure:** AWS
